TEMPORARY

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

| Dat | SEP 2 2 1995 te of filing in State Engineer's Office |
|-------|--|
| Ret | urned to applicant for correction |
| Cor | 10-5-95 under 61565-T rrected application filed |
| | The applicant SMOKY VALLEY MINING DIVISION, COPPER RANGE COMPANY |
| | P. O. BOX 480 of ROUND MOUNTAIN Street and No. or P.O. Box No. City or Town |
| | |
| | NEVADA 89045 hereby makeSapplication for permission to change the State and Zip Code No. Point of Diversion and manner of use |
| | Point of diversion, manner of use, and/or place of use |
| of v | water heretofore appropriated under. Permit #44297 Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and |
| ident | ify right in Decree. |
| | |
| 1. | The source of water is underground Name of stream, lake, underground spring or other source. |
| 2. | The amount of water to be changed |
| | The water to be used for dewatering, mining and milling Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals. |
| | The water heretofore permitted for domestic, mining and milling. Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals. Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals. |
| | |
| 3. | The water is to be diverted at the following point. SEL NEL S30 T10N R44E M.D.B.&M. Describe as being within a 40-acre subdivision of public survey and by course and |
| | distance to a section corner. If on unsurveyed land, it should be stated. |
| | NW ¹ / ₄ SW ¹ / ₄ , S19, T10N, R44E, at a |
| 6. | The existing permitted point of diversion is located within |
| · | |
| | within Sections 17, 18,19,20,29,30 and 31, T10N, R44E, |
| 7. | Proposed place of use |
| | |
| | R43E, M.D.B.&M. and Sections 1 & 2 T9N, R43E |
| 8 | within Sections 17, 18, 19,20,29 & 30, T10N, R44E, M.D.B.&M. |
| 0. | Existing place of use |
| | manner of use of irrigation permit, describe acreage to be removed from irrigation. |
| _ | January 1 December 31 |
| 9. | Use will be from |
| 10. | Use was permitted from |
| 11. | Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and |
| | drill and case well in pit with electric specifications of your diversion or storage works.) State manner in which water is to be diverted, i.e. diversion structure, motor and submersible pump. |
| | ditches, pipes and flumes, or drilled well, etc. \$75,000.00 |
| 12. | Estimated cost of works |
| 13. | Estimated time required to construct works |

| | stimated time required to | complete the applican | on or water to | Jonetician apoli | | |

STATE ENGINEER (0)-1108 (Rev. 6-81)

Page 2 61568-T

(PERMIT TERMS CONTINUED)

The State Engineer will retain the right to require additional monitoring of the water levels in observation and monitor wells and of the flow rates of surface sources. The permittee, on a schedule acceptable to the State Engineer, shall prepare and present an update on the activities of the mine and the monitoring on a periodic basis, but not less than two times per year.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate land.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project.

The total combined duty of water for consumptive purposes under Permits 536; 1077, Certificate 267; 2908, Certificate 353; 3898, Certificate 2347; 12442, Certificate 3831; 12445, Certificate 3832; 12768, Certificate 3751; 14119, Certificate 4889; 26650, Certificate 13904; 26652, Certificate 13905; 44297; 44299; 44300, Certificate 13174; 50971; 51577; 51578; 52083; 53365; 55498; 55500; 55501; 55502; 55503; 59217; 59218; 61086-T, 61087-T, 61565-T, 61566-T, 61567-T and 61568-T shall not exceed 13,910.0 acre-feet annually.

A monthly report shall be submitted to the State Engineer within 15 days after the end of each calendar quarter which shall include: (A) The volume of water pumped from each well, (B) The measurement of pumping water level (drawdown) from each production, dewatering and monitoring well, (C) The volume of water consumptively used for mining and milling uses projectwide, (D) The volume of water used for dust control purposes projectwide, and (E) The amount of water discharged for infiltration.

A method that estimates the amount of evaporative losses from the discharge system shall be submitted with the monthly report. The evaporative losses will be considered as part of the combined duty for consumptive purposes.

The State Engineer retains the right to impose future conditions as necessary upon review and evaluation of all data submitted reporting on the dewatering program, water use and the monitoring plan. The State Engineer retains the right to regulate pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights.

All of the above stated conditions are subject to having no adverse impacts on existing rights.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on November 12, 1996, at which time all rights herein granted shall revert to the right being changed by this temporary permit.
